COLLECTING POINTS

Earn points every time you play with your Players Club membership card. For slots, remember to insert your membership card into the machine when you start playing.

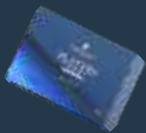

You can earn 1 point for every 4 to 6 euros played on video slots and around 10 euros on electronic roulette.

On table games, hand your membership card to the dealer at the beginning of your game. The points collected at tables depend on the game type, the duration of play, and the amount you bet. Exchange your points for promo credits for slot games, promo chips for live games, or a variety of services in both the Hotel and Casino.

MEMBERSHIP LEVELS

Our program consists of four different tier levels: BLUE, SILVER, GOLD, and DIAMOND. BLUE is the starting level for all players. To advance to the next level, you must accumulate the minimum required points within a 12-month period. Reaching the points threshold for SILVER and GOLD levels, as well as receiving an invitation, will grant you an upgrade. Promotion to the DIAMOND level is by invitation only.

Membership levels are reviewed periodically, and if the conditions are not met, a demotion will occur.

Spending points will not impact your tier level. Even if you have 0 points at the end of the 12th month, your level won't be affected as long as you have earned a sufficient number of points during the one-year period. Points are valid for 6 months, so be sure to utilize them before they expire.

Please note that program terms and conditions might change without prior notice. Management reserves all rights.
